

ALONE WITH YOU

I think that I'll unplug the phone tonight
Turn off the TV, turn down the lights
I don't wanna join the crowd
I'm not in the mood
I just wanna be alone with you

I don't feel like goin' anywhere
If I'm missin' somethin' I don't care
I don't feel like hangin' out
There's nothing I wanna do
I just wanna be alone with you

It's been so long since we've been alone
I wanna make the most of it
Savor every little bit we can....

Tonight I think I'll give the car a rest
If they wonder where we are let 'em guess
In your arms and out of reach
I don't wanna leave this room
I just wanna be alone with you...
Yeah, I just wanna be alone with you....
