

THREE DAYS

By: Mel Gibson

Written by: T. Dennis, O. G. Loeser, K. R. Diamond

Three days, a weekend and a Monday
Three fun days, for just you and me
Three days, livin' like castaways
We'll sail our phones away, into the deep blue sea

We'll swim in the lagoon, and make love in the sand
Beneath the island moon, we'll stroll hand in hand

For three days, a weekend and a Monday
Three fun days, for just you and me
Three days, livin' like castaways
We'll sail our phones away, into the deep blue sea

We'll unwind each day, back to island time
Where limbo's not just a game, it's a state of mind

For three days, a weekend and a Monday
Three fun days, for just you and me
Three days, livin' like castaways
We'll sail our phones away, into the deep blue sea....

And now when we look into our baby's eyes
We remember the magic made in paradise

In three days, a weekend and a Monday
Three fun days, for just you and me
For three days, we live like castaways
We'll sail our phones away, into the deep blue sea...
We'll do it again someday, baby just you and me....
