Well He's so high (so high, you can't get over Him)  
So wide (so wide, you can't get around Him)  
So low (so low, you can't get under Him)  
Great God Almighty (you must come in at the door)

Well He's high (so high, you can't get over Him)  
He's is wide (so wide, you can't get around Him)  
So low (so low, you can't get under Him)  
The mighty lamb (you must come in at the door)

Well I went way down in the valley  
You know I did, over there, ever stay  
My soul got happy in the valley  
You know I stayed right there all day

Well He is high (so high, you can't get over Him)  
He is wide (so wide, you can't get around Him)  
I know He's so low (so low, you can't get under Him)  
The mighty lamb (you must come in at the door)

Well I ain't been to heaven, but I, I am told  
The streets, the streets are pearls  
You know the mighty, mighty gates are gold

And He is high (so high, you can't get over Him)  
So wide (so wide, you can't get around Him)  
He's so low (so low, you can't get under Him)  
The mighty lamb (you must come in at the door)

Well He is high (so high, you can't get over him)  
And He is wide (so wide, you can't get around Him)  
I know He's so low (so low, you can't get under Him)  
The mighty lamb (you must come in at the gold)  
Come in at the gold...
